

EVCO Meeting Record
(Electric Vehicle Council of Ottawa)
May 30th, 2011 7:30 p.m.
Canadian Museum of Science and Technology

Agenda items	Description
Agenda	An agenda was proposed and accepted at the start of the meeting.
Introductions	Newcomers and guests were asked to introduce themselves.
EV Roll Call	Electric Car - 3 Hybrid Car - 0 Plug-in Hybrid - 1 Electric Bicycle – 5 Electric Motorcycle -0 Electric Mobility - 1 Public Transportation - 1 Car Pooling - 4 Human Powered Bicycle– 1 Walking – 0
Previous month's events	EV Expo Review: Allan facilitated a group session where we looked at the following: 1) Compliments, 2) challenges and 3) Curiosities. Action planning on the gathered data will continue at the next meeting.
NCC eBike Consultations	May 3, May 4 evenings of public consultations. Good EVCO presence at both meetings: Peter, Charles, Juergen, Darryl (plus review of some of the materials by Allan). Darryl sent in a written submission on behalf of EVCO summarizing the feedback that was presented to the NCC. NCC were open to the discussion.
Coming Events	June 4 th Bicycle Fest (Velo Fest) downtown. Eco-Stewardship Fair in September 17 th 10-5. Carleton University field house. Mark taking the lead. http://www.ottawaecofair.ca/
Electric Go-Karts	Conroy track will open up one or two nights a week to people bringing in their own go-karts. If EVCO [members] had multiple go-karts, arranged for the track (and potentially the insurance issues) it could represent as much learning and promotional opportunities for EVs as the Electrathon events did. There is also a go-kart track in Quyon Quebec. (also ref Mythbusters who did a competition between a gas and a lithium cart to compare). This would be a good theme for the EV course: purchase a frame and convert it. David French offered to do an Internet crawl and present a summary of the state of eGo-karting in America. Juergen is offering a partially completed eGo-kart to the membership, available for viewing at the Ridemore shop.
